Hi John,

I have been working with Marcia Mia on a recent FOIA request we had received, and I just wanted to follow up with you on the CBI procedures we plan on later tasking the Regions with. I believe there was a concern regarding the tone, and that you were currently reviewing it. Do we know what the current status of that review process? We are hoping to get something to OGC soon in order to proceed with the tasking on FOIAonline.

Thanks!

John

Marcia,

Thanks for the messages. Will see if we can locate the tuned up language per below and follow up tomorrow if possible. Best,

John

Hi John,

Per my VM, we worked together spring of 2018 on FOIA 2018-001886. We have received a similar FOIA, but for the time period from the end of the 1886 FOIA to date. This will require us to go through the regions for reports which were sent to them in hard copy. If you recall, we sent out the following email to the responsible officials. OAR received negative feedback from the recipients and we said we would alter the tone if we had subsequent emails to send. I am unable to find the mark up which we discussed at that time.

We also worked on the attached FYI document, which was not finalized.

Would you be the one to help clean this email up and finalize the FYI document? If not, who should we work with? Thanks, in advance.

Marcia,

Thanks for sharing this, a few suggestions herein from Jonathan L. and I. Presume this is an updated version of the note that might serve as a future template or is this what was sent previously by regions?

Given that some of the concerns in this vein were heard from our IO, think it might be useful if we also share with them for some quick feedback. Wanted to check with you beforehand and also to ensure I understood context with this version. Appreciate your thoughts. Thanks again. Best,

John

John,

I am still in a bit of a back and forth with OGC on the follow-up responses to the FOIA request. But I am attaching the most recent draft here for your review. Let me know if you have any comments. Thanks.
